

**HOW TO RIDE IN TRAFFIC:**

**BE PREDICTABLE**

Ride so drivers can see you and predict your movements. Remember that the rules in the driver's manual apply to bicyclists also.

**USE HAND SIGNALS**

Hand signals tell others what you intend to do. Signal as a matter of courtesy and of self protection.

**OBEY TRAFFIC SIGNS, SIGNALS, AND LAWS**

Bicyclists must follow the same laws as motorists. Stop at red lights and stop signs just as you would in a car.

**RIDE IN A STRAIGHT LINE**

Ride in a straight line and far enough from parked cars so you can avoid suddenly opened doors. Riding in a straight line allow others to anticipate what you are likely to do.

**DO NOT PASS ON THE RIGHT**

Wherever you ride, be cautious even when riding in a bike lane. When approaching an intersection or driveway, be especially cautious and do not overtake a vehicle on its right. It might turn right on you.
